

AGENDA

Open Forum Meeting TIG -10 (Geophysical Operations) Thurs 6th November, 2008: 2-5 pm

(Presented by Intrepid Geophysics, sanctioned by the Australian Geothermal Energy Group)

Venue: University of Adelaide, Level 1 Lecture Theatre,
Santos Petroleum Engineering Building

Thursday 6th November

Chairperson: Des FitzGerald (Intrepid)

Secretary of Minutes and Wrap-up: Catherine Stafford (Granite Power) & Anthony Budd (GA)

What is the end point for geothermal developments?
- modeling depletion of geothermal fields Allan Clotworthy (SKM) 2.00-2.40 (2.45)

Micro-seismic events David Love (PIRSA) 2.45-3.00 (3.05)

What can we expect from micro-seismic monitoring? Des FitzGerald (Intrepid) 3.05-3.20 (3.25)

Coffee Break 3.25-3.45

Soultz Project Update Philippe Calcagno (BRGM) 3.45-4.00 (4.05)

Practicalities of thermal conductivity measurements Graeme Beardsmore (HDR) 4.05-4.20(4.25)

Remote sensing of surface temperatures Des FitzGerald (Intrepid) 4.25-4.40 (4.45)

Open Forum Wrap-up: Catherine Stafford and Anthony Budd End 5.00 pm

Specialising in Geophysical Processing and Interpretation Systems
