OPERATIVE PROVISIONS

1. Pursuant to the Minister's offers to grant the petroleum production licences identified in the attached schedule ("Licences") to the Licensees, the Licensees hereby agree and undertake to:
 - 1.1 make application to the Minister to surrender such part (if any) of each licensed area ("Surrendered Areas") on or before the date specified for that Licence in the fourth column of the schedule so that the remaining area of that Licence is no greater than the combined total of:
 - (a) the area under which proved and probable reserves of petroleum occur including areas under which proved and probable reserves of petroleum can be demonstrated to have occurred prior to the initiation of production from the field; and
 - (b) surrounding land identified by the Licensees equal in size to the area mentioned in 1.1(a);
 - 1.2 surrender the least number of separate areas where technically appropriate and with regard to good petroleum field practice.
2. The Parties (which in this Deed shall mean the Minister and each of the Licensees) agree that the Licensees will have no right to retain title over the Surrendered Areas as a petroleum retention licence under any legislation which allows for such licences.
3. If the Minister following a technical review with the Licensees forms the view that the area or areas identified by the Licensees under 1.1(a) is or are not technically justified having regard to the matters referred to at 3.1 and 3.2, the Parties agree to appoint a suitably qualified expert (whose decision shall be final and binding), the costs of whom shall be borne equally between the Minister on the one hand and the Licensees on the other, to determine such area or areas. In the event the Parties fail to agree on the appointment of a suitably qualified expert, the expert shall be appointed by the President of the Society of Petroleum Engineers or his or her nominee. The expert shall, in making

his determination, have regard to:

- 3.1 the 1997 SPE/WPC Reserve Definitions; and
- 3.2 PIRSA's "Department of Mines and Energy, South Australia Report Book 91/96".
