

## TRAVELLERS' GUIDE

### WHAT YOU CAN & CAN'T BRING INTO SOUTH AUSTRALIA

#### **Fruit & vegetables into South Australia**

South Australia is free from fruit fly and other pests.

The movement of *fruit and some vegetables* into South Australia is prohibited unless certified.

Quarantine roadblocks and quarantine disposal bins are strategically placed throughout SA.

Entry conditions do apply *and may vary depending upon which state travellers are coming from*.

*Restrictions apply to all fresh, unprocessed (purchased or home grown) fruit, and some vegetables including:*

- **Citrus** - orange, mandarin, lime, grapefruit, lemon, cumquat
- **Pome** - apple, pear, quince, crab apple
- **Stone** - peach, plum, apricot, nectarine, cherry
- **Tropical and temperate** - avocado, banana, berry fruit, feijoa, fig, guava, grape, passionfruit, loquat, mango, paw paw, persimmon
- **Fruiting vegetables** - capsicum, chilli, eggplant, tomato, tamarillo
- **Allium family** - onions, garlic, spring onions, leeks, chives, shallots etc
- **Potatoes**
- **Pumpkins, melons, cucurbits, beans**

*The following produce is permitted:*

- **Cooked, processed, preserved, frozen, canned, dried fruit and vegetables**
- **Pineapple**
- **Leaf vegetables** – lettuce, cabbage, cauliflower, broccoli, celery (restricted from WA))
- **Root vegetables** – carrot, turnip, parsnip, swede, radish, beetroot, ginger; washed (tops removed)
- **Sweet Potato**
- **Mushrooms**
- **Asparagus**
- Foods such as dairy produce, meat, smallgoods, seafood, & packaged or processed goods are unrestricted.

#### **Permanent Roadblocks (Quarantine Stations) in South Australia**

Random roadblocks operate on roads leading into SA's Riverland (Fruit Fly Exclusion Zone).

Permanent roadblocks are stationed in the east, north-east & west of the state at:

- Yamba                 Sturt Highway
- Oodla Wirra         Barrier Highway
- Pinnaroo             Mallee Highway
- Ceduna               Eyre Highway

#### **Plant Material into South Australia**

Some plants including cuttings, bud wood, bulbs and grapevines are restricted or prohibited.

Dirt (garden soil) is not permitted. Commercial growing medium accepted.

**Check with PIRSA for entry conditions.**

#### **Green snail (Western Australia)**

South Australia is free from green snail. This pest is a problem in WA and can be carried in a wide range of plants including native varieties, leafy vegetables, cereal crops and pasture crops including hay.

Green snail host material must be declared at the Ceduna Quarantine checkpoint.

**Check with PIRSA for entry conditions.**

#### **Fire Ant (Queensland)**

South Australia is free from fire ant. This pest is a problem in certain parts of Queensland. High-risk materials include pot plants, soil, mulch, potting mix, baled hay or straw, landscaping or construction materials, machinery and equipment.

**Check with PIRSA for entry conditions.**
