

SOUTHERN ZONE ABALONE FISHERY
Fisheries Management Act 2007
Fisheries Management (Abalone Fisheries) Regulations 2006

**APPLICATION TO TRANSFER
ABALONE QUOTA UNITS**

INSTRUCTIONS FOR COMPLETION OF APPLICATION

1. You must forward an application fee of \$125 with this application.
2. A separate application form is to be completed for each proposed transfer to a different licence holder of one or more types of quota.
3. **All applications must be completed in full before being lodged** with PIRSA Fisheries & Aquaculture. Applications that are not complete, or that do not have correct documentation attached, will be returned. Please contact PIRSA Fisheries & Aquaculture on (08) 8204 1370 if you have any queries. Licence Holders **MUST** initial each page (bottom corners) where indicated.

INFORMATION ABOUT TRANSFERS

1. Quota unit entitlements are reallocated and endorsed on licences prior to 1 September each year in the Southern Zone Abalone Fishery, for the start of the quota year on 1 September. Temporary quota unit transfers therefore only apply until the end of the year in which the transfer is made – i.e. until 31 August.
2. There are minimum permanent quota unit holdings that apply. If a licence has less than the minimum permanent quota unit entitlement, it is illegal to take abalone pursuant to those units. The minimum permanent quota unit entitlements that apply for each class of abalone and each fishing zone are set out in the table below.

Column 1 Class of abalone	Column 2 Fishing zone	Column 3 Minimum Quota Unit Entitlement
Blacklip abalone	Area S (Fishdown)	50
Blacklip abalone	Outside Area S	50
Greenlip abalone	The Southern Zone	5

3. Only permanent quota unit transfers are considered for determining whether the permanent quota unit entitlement for a class of abalone in a fishing zone has been reduced to less than the minimum quota unit entitlement (the number specified in column 3 of the table above).
4. Your permanent quota unit entitlement is calculated as the sum of the 'current owned units' on the licence extract certificate issued to you at the beginning of the current quota period and the net adjustment as a result of a **permanent** quota transfer(s) during the same quota period.
5. **Only unfished quota units can be transferred.** Unfished quota units can be permanently or temporarily transferred using this application form.

Transferors init's

Receivers init's

6. Quota unit entitlements should not be fished until you have received written confirmation that the entitlements have been endorsed on the licence.
7. Permanent and/or temporary transfer of abalone quota units will not alter the annual licence fees that apply. Your fees will not be recalculated. You will still be charged the full licence fee as notified at the time of renewal, including any outstanding instalments. Licence holders should consider these fees when negotiating the transfer price of abalone quota.
8. Southern Zone Abalone quota transfers attract stamp duty, including transfers between family members and transfers where no money changes hands.

A copy of this form will be forwarded to **RevenueSA** for assessment of stamp duty. Stamp duty is charged on either the consideration (inclusive of GST) or market value of the property transferred, whichever is greater. Generally, stamp duty must be paid within two (2) months of the transfer.

Documentation (i.e. contracts, agreements and tax invoices) associated with a transfer may be requested by **RevenueSA** to enable an assessment of stamp duty.

RevenueSA can be contacted by telephone on (08) 8226 3750 or by email at compliance.licensing@sa.gov.au. Stamp duty assessments can be paid in cash at the State Administration Centre, 200 Victoria Square, Adelaide or by cheque made payable to "Commissioner of State Taxation" and sent to: **RevenueSA – Stamp Duty Licensing, Compliance Services**, GPO Box 2149, Adelaide SA 5001.

Further information about **RevenueSA** can be obtained at www.revenuesa.sa.gov.au.

Please note that documents associated with this transfer **cannot** be stamped via RevNet.

Information Circular No: 10

Stamp Duties Act 1923

Transfer of Fishing Licences Liability for Duty

Issued 31 May 2010

RevenueSA is responsible for the assessment and collection of stamp duty under the *Stamp Duties Act 1923* (the "Act").

Stamp duty is charged on instruments that convey an interest in **property**.

Property, for purposes of the Act, includes the transfer of fishing licences. This view has been confirmed by the South Australian Supreme Court in *Pennington v McGovern* (1987) 45 SASR 27 and by the Western Australian Supreme Court in *Austell Pty Ltd v Commissioner of State Taxation* (WA) 20 ATR.

The Act extends to temporary transfers of fishing licences (commonly referred to as "leases" of licences) as they are considered to be "an outright transfer of limited duration" within the legislative fisheries licensing framework.

Stamp duty is assessed on the consideration or market value, whichever is the greater. If the consideration is deemed below market value (even after evidence has been provided), the Commissioner of State Taxation may request a valuation of the property and assess the duty payable by reference to that valuation. The cost of the valuation may be recoverable from the person liable to pay the duty.

Stamp duty is calculated at *ad valorem* rates. For further information regarding the calculation of duty please visit the RevenueSA website at www.revenuesa.sa.gov.au.

The instrument that conveys the property and is assessed for stamp duty is the completed *Licence Transfer Form approved* by Primary Industries and Resources SA.

If you have any questions please contact RevenueSA at compliance.licensing@sa.gov.au.

Mike Walker
COMMISSIONER OF STATE TAXATION

31 May 2010
