1. Please list the aquatic reserve/s where the proposed activity will occur:

2. Describe the activities that you propose to undertake and the equipment and methods that will be used to carry out these activities:

3. State any species and quantities of each to be collected or sampled:

4. Identify any species or habitat that may incidentally be disturbed during the proposed activity and what will be done to minimize this risk:

5. Have other sites been considered that are not with an aquatic reserve? If there are no other sites, please explain why other sites are not suitable:

6. List the names, addresses and fishery licence numbers or aquaculture licence numbers (if applicable) of the people who will be carrying out the proposed activities:

7. List the proposed dates and length of time for when the proposed activities will occur:

8. Have you previously been granted a permit or exemption? If so, please supply details:

9. Have you or any person associated with your company or organisation been convicted of an offence under fisheries legislation in Australia? If so, please supply details:

10. The statutory objectives of the *Fisheries Management Act 2007* are set out in section 7:

An object of this Act is to protect, manage, use and develop the aquatic resources of the State in a manner that is consistent with ecologically sustainable development and, to that end, the following principles apply:

- (a) proper conservation and management measures are to be implemented to protect the aquatic resources of the State from over-exploitation and ensure that those resources are not endangered;
- (b) access to the aquatic resources of the State is to be allocated between users of the resources in a manner that achieves optimum utilisation and equitable distribution of those resources to the benefit of the community;
- (c) aquatic habitats are to be protected and conserved, and aquatic ecosystems and genetic diversity are to be maintained and enhanced;
- (d) recreational fishing and commercial fishing activities are to be fostered for the benefit of the whole community;
- (e) the participation of users of the aquatic resources of the State, and of the community more generally, in the management of fisheries is to be encouraged.
