

Agronomy Branch Reports

From 1968 to 1980 the Department of Agriculture (to 1975) and the Department of Agriculture and Fisheries (1975–1979) issued reports by the Agronomy Branch in Adelaide. The Agronomy Branch's annual reports for 1969/70–1978/79 inclusive were published as Reports 18, 30, 43, 49, 58, 69, 74, 89, 100 and 110: these are not listed below. Reports 87 and 106 were never published, while Report no. [19.2] resulted from a misnumbering (or a number not being issued). In 2006 the reports were scanned as electronic text files (image only) from the collection of Agronomy Branch reports held in the Woolhouse Library of the University of Adelaide (Waite campus, South Australia). The titles are from the title page (viewed between 23 and 29 May 2006). Each can be downloaded as a PDF file from the University of Adelaide's Internet website. Adobe Acrobat Reader is required to view/print the PDF file.
