

Please read Explanatory Notes before completing. Copies must be kept for at least 1 year. Original to accompany stock and a copy to be retained by owner or person responsible for the husbandry of the alpaca/s. For sales/movement within SA Parts A, C & D must be completed. For movements into SA **all** parts must be completed and a copy must be faxed to the CVO on 8207 7852. **Use of this document is mandatory for all movements into SA.**

Part A Animal Details

To be completed by the owner or person responsible for the husbandry of the alpaca/s at the place where alpaca/s have been kept.

Name of Person and Full Trading Name

Property/place where alpaca/s have been kept (Full Address including Post Code).....

Property Identification Code (PIC) of this property

--	--	--	--	--	--	--	--

Description of alpaca/s (shaded fields are mandatory)

Ear Tag Details	Description (i.e. Name, Color, Huacaya / Suri)	Born on Property Y/N	Sex M/ F/W	DOB	Pregnant Y/N Date Last Mated

Total Number of alpaca/s

--

 NB If insufficient space please attach additional sheet.

Consigned to (Full Name, Address including Post Code).....

Property Identification Code (PIC) of destination property (if known).

--	--	--	--	--	--	--	--

Details of other documents relating to this movement
(e.g. Permits, Animal Health Certificate, Confirmation of Pregnancy, Certificate of Castration.)

Document Type	Number	Office of Issue	Expiry Date

Part B Movement of Alpaca into SA

Only complete when moving alpacas into SA.

An additional copy of form **must** be sent to Chief Inspector of Stock, PIRSA, GPO Box 1671, Adelaide 5001 Fax 08 8207 7852

Carrier (Name).....

Expected Date of Entry.....

Agent Name & Address (If used).....

The animals described above are being introduced into SA as follows (please tick one of the boxes below)

- B.1** The alpaca/s listed are from SA and are returning direct to SA from an interstate show/sale where Johne's Disease (all species) restrictions were in place.
OR

- B.2** The alpaca/s listed are from SA and are returning from supervised mating/s interstate where the mating areas conform with the definitions described in JDMAP
OR

- B.3** The property of origin does not have an Infected, Suspect or Under Surveillance status with regard to Ovine and Bovine strains of Johne's Disease **AND** the alpacas being transported comply with the movement restrictions between zones (refer to B3 of explanatory notes).

Part C Health Statement

To be completed by the owner or person responsible for the husbandry of the alpaca/s.

C.1 JOHNES DISEASE

C.1.1 What is the Johne's status of the alpaca/s listed?

- Alpaca MAP** Certificate No.....Status.....Expiry Date.....
 Q Alpaca Certificate No.....Expiry Date.....
 Check Tested Test Date.....Lab No.....Expiry Date.....
 Non Assessed

C.1.2 Have any of the alpaca/s described in Part A been co-grazing with sheep in the last 5 years?

- Yes** **No** **Don't Know** If yes complete below
 OJD Flock Status of contact sheep flock (i.e. NA, MN1 etc)
 ABC Score of contact sheep flock

C.1.3 Have any of the alpaca/s described in Part A been co-grazing with cattle in the last 5 years?

- Yes** **No** **Don't Know** If yes complete below
 BJD Herd Status of contact cattle herd (i.e. NA, MN1 etc)
 National Dairy Herd Score of contact cattle herd

C.2 OTHER

C.2.1 Have any of the alpaca/s been treated with any veterinary drug or animal health product during the last 12 months e.g. vaccinations, lice treatment?

- Yes** **No** If **Yes**, give details

Date	Animal ID	Product	Products WHP

C.2.2 In the last 60 days have any of these alpaca consumed any stock feed that was still within a WHP when harvested or first grazed?

- Yes** **No** If **Yes**, give details

Date	Animal ID	Product	Products WHP

Part D Declaration

To be completed by the owner or person responsible for the husbandry of the alpaca/s.

I (please print name in full) declare that I am the owner/person responsible for the husbandry of the alpaca/s sold/transported, that all the information on this document is true and correct and that I hold supporting documentation and parts A, C & D of form are completed. If introducing stock from interstate I also declare that I have inspected the stock, believe they are in good health and they meet the requirements for entry to SA and all sections of form are completed.

Signature Date Phone No

The SA Alpaca Movement and Health Vendor Declaration combines animal health, waybill and vendor information for the sale/movement/agistment of all South American Camelids within and into SA. This form is mandatory for the movement of South American Camelids into SA and replaces the Form 1 previously used for interstate certification. This is a statutory document and any false, misleading or unverified statements may result in prosecution. The use of the document for movements of South American Camelids within SA is strongly recommended and if used is a legally binding document.

DIRECTIONS FOR USE

For this document to be valid the following sections must be completed and copies retained/sent as outlined below.

1. Movement and sales of alpaca within SA

Requirement of Use	Strongly recommended
Complete	Part A- Animal Details Part C- Health Statement Part D- Declaration
Copies	1. Original to accompany stock enroute 2. Copy to be retained by owner/person responsible for the husbandry of the animals
2. Movement of alpaca into SA from interstate-

Requirement of Use	Mandatory
Complete	All sections (i.e. Parts A, B, C & D)
Copies	1. Original to accompany stock enroute 2. Copy to be retained by owner/person responsible for the husbandry of the animals 3. Copy to be sent or faxed to: Chief Inspector of Stock, PIRSA GPO Box 1671 Adelaide, SA 5001 Fax (08) 8207 7852

All copies and originals of the forms must be retained for a minimum of 1 year.

NB. In the event of moving/selling alpaca from the BJD control zone in SA to the BJD protected zone the alpaca must comply with the BJD requirements as outlined in section B3.3 of the explanatory notes.

EXPLANATORY NOTES

PART A Animal Details

To be completed by the person who owns or is responsible for the husbandry of the alpacas

1. Property /place where alpaca/s have been kept

The address and PIC of the property/place where the journey commenced must be recorded regardless of the length of time the alpaca/s have resided on the property/place. If the alpaca/s were walked to the yards on another property exclusively for the purpose of loading at the commencement of this journey, do not record the PIC of the property on which the alpaca/s were loaded. In such instances record the PIC of the property of last residence.

2. Description of alpaca/s

This section contains both mandatory and non mandatory fields.

Ear tag details should include breed association and management tags.

If there is insufficient space please attach additional sheet in same format and indicate number of attached pages on Declaration.

3. Details of other documents

Other documents relating to this movement eg Health Certificate, Certificate of Pregnancy, Certificate of Castration should be listed and made available to buyer on request.

PART B Movement of Alpaca into SA

AN ALPACA MOVEMENT AND HEALTH DECLARATION IS MANDATORY FOR ALL MOVEMENTS INTO SA.

The declaration is to be completed by the person who is responsible for the husbandry of the alpaca/s. Carrier and Expected Date of Entry into SA must be completed for the Declaration to be valid.

B. 1 Returning from interstate shows

Where alpaca/s are returning direct from an interstate show where by Johne's disease restrictions (Ovine and Bovine strains) were in place and the alpacas have not made any other stop overs, the alpacas are **exempt** from the normal interstate movement requirements (as outlined in Part B.3).

B.2 Returning from supervised matings

Where alpaca/s are returning from interstate where all properties visited conform to the definition of a 'supervised mating' (as outlined in the Australian Johne's Disease Market Assurance Program -JDMAP for Alpaca) and no other stop overs have been made, the alpacas are **exempt** from the normal interstate movement requirements (as outlined in Part B.3). If numerous properties are being visited for matings in the one trip and all do not conform to the definition of a 'supervised mating' normal interstate movement requirements will apply as outlined in part B.3.

B.3 All other introductions of alpaca to SA

THE INTRODUCTION OF ALPACA/S INTO SA FROM INFECTED, SUSPECT OR UNDER SURVEILLANCE PROPERTIES FOR JOHNES DISEASE (both Ovine and Bovine) IS PROHIBITED WITHOUT CVO APPROVAL.

To apply for CVO approval contact your local Animal Health Officer or ring Animal Health head office on 8207 7900.

Complete the following steps to determine the requirements of entry into SA.

1. For the property of origin from which the alpaca/s are being moved, determine the
 - a. OJD score for that property (refer to local DPI office in that state or visit www.pir.sa.gov.au) and record in part C.1.2 of the Declaration. If sheep of differing scores have been on the property within the last 5 year record the lowest OJD score present in that time period. If the OJD score is less than 4, CVO approval is needed for the alpaca to enter SA. If the OJD score is 4 or above the alpaca meet OJD entry requirements.
 - b. BJD zone the property is in (refer to the local DPI office in that state).

2. For the property to which the alpaca/s are to be introduced in SA determine the BJD zone the property is in (NB Protected Zone of SA equals north of Pt Augusta, remainder of state is Control Zone- for further detail contact the local PIRSA office or www.pir.sa.gov.au).
3. Refer to the table below to determine the eligibility of the alpacas for movement into SA.

BJD Movement Requirements

Movement	Eligibility
From BJD Free or Protected Zones to anywhere in SA	Yes
From a BJD Control Zone to SA Control Zone	Yes
From BJD Control Zone entering SA Protected Zone OR From a BJD Residual Zone entering SA Control Zone	<ul style="list-style-type: none"> • Must be of MN1 status or better under Alpaca MAP OR <ul style="list-style-type: none"> • Must have been tested to a level equivalent to MN1 status or better in the last 12 months OR <ul style="list-style-type: none"> • Must originate from a flock that has been tested to the Check Test (CT) standard within the previous 12 months OR <ul style="list-style-type: none"> • Must be enrolled in Q-Alpaca Certificate or Lab Number Last Test Date.....
From BJD Residual Zones entering the SA Protected Zone	<ul style="list-style-type: none"> • Must have a status of MN1 or better under Alpaca MAP OR <ul style="list-style-type: none"> • Must be enrolled in Q-Alpaca

PART C Animal Health Statement

To be completed by the owner or person responsible for the husbandry of the alpaca/s

C.1 Johne’s Disease

NB Properties on Q-Alpaca are deemed to have a equivalent status to MN1 Alpaca MAP properties.

C.1.1. Where multiple alpacas of differing Johne’s Disease status are recorded on the one Declaration fill in the form for the animal with the lowest health status or attach separate sheet indicating each individuals JD status.

C.1.2 If the alpaca/s listed have visited multiple sheep properties record the lowest sheep flock status and OJD score visited.

Movement of alpaca/s from one sheep property to another does not alter that property’s OJD score (i.e. the movement of alpaca does not downgrade the OJD score). However it is recommended that movement of alpacas on sheep properties should be restricted to properties of the same or higher score.

C.1.3 If the alpaca/s listed have visited multiple cattle properties record the lowest cattle herd status and Dairy Herd Score (if applicable).

C.2 Other

If insufficient room to record all treatments please attach additional pages and indicate on the front of form the number of attached pages.

PART D Declaration

To be completed by the owner or person responsible for the husbandry of the alpaca/s. Signing Part D has legal significance and regulatory authorities may take legal action and purchasers may seek damages if any information in parts A B C is incorrect. Before signing you must be absolutely satisfied you understand all elements of the document and these explanatory notes. If the person signing the document has not been responsible for the husbandry of the animals the words ‘person responsible’ should be struck out.

DEFINITIONS

Alpaca MAP (Alpaca Market Assurance Program)-A Johne’s Disease quality assurance program based on bio-security and faecal testing.

Co-grazing- Refers to a situation where alpaca/s have grazed land that adult cattle (>2yrs) or adult sheep (>12 months) have grazed in the past 12 months.

CVO- Chief Veterinary Officer.

PIC (Property Identification Code)- A unique number assigned to a parcel of land on which livestock are held. In SA sheep, goats and cattle are required under legislation to be registered to a PIC. Registration of alpaca is strongly recommended in SA.

Q- Alpaca- A Johne’s Disease quality assurance program based on bio-security and post-mortem testing.

South American Camelid- Any animal in the Family *Camelidae* of Genus *Lama* and *Vicugna* i.e. Llama and Alpaca but not those in the genus *Camelus* i.e. Dromedary and Bactrian Camel.

Supervised Mating- See Australian Johne’s Disease Market Assurance Program (JDMAP) for Alpaca Manual.

WHP (With Holding Period)- is the minimum period that must elapse between treatment of an animal and slaughter for human consumption in Australia.

Additional copies of this form can be down loaded from-

www.pir.sa.gov.au

**If further assistance is required to fill out this form please contact your local PIRSA
Animal Health Officer. If unsure of your nearest officer contact PIRSA Animal Health
Head Office on 8207 7900.**
