

Expression of Interest Form

Earthmoving / Fencing / Patrol services

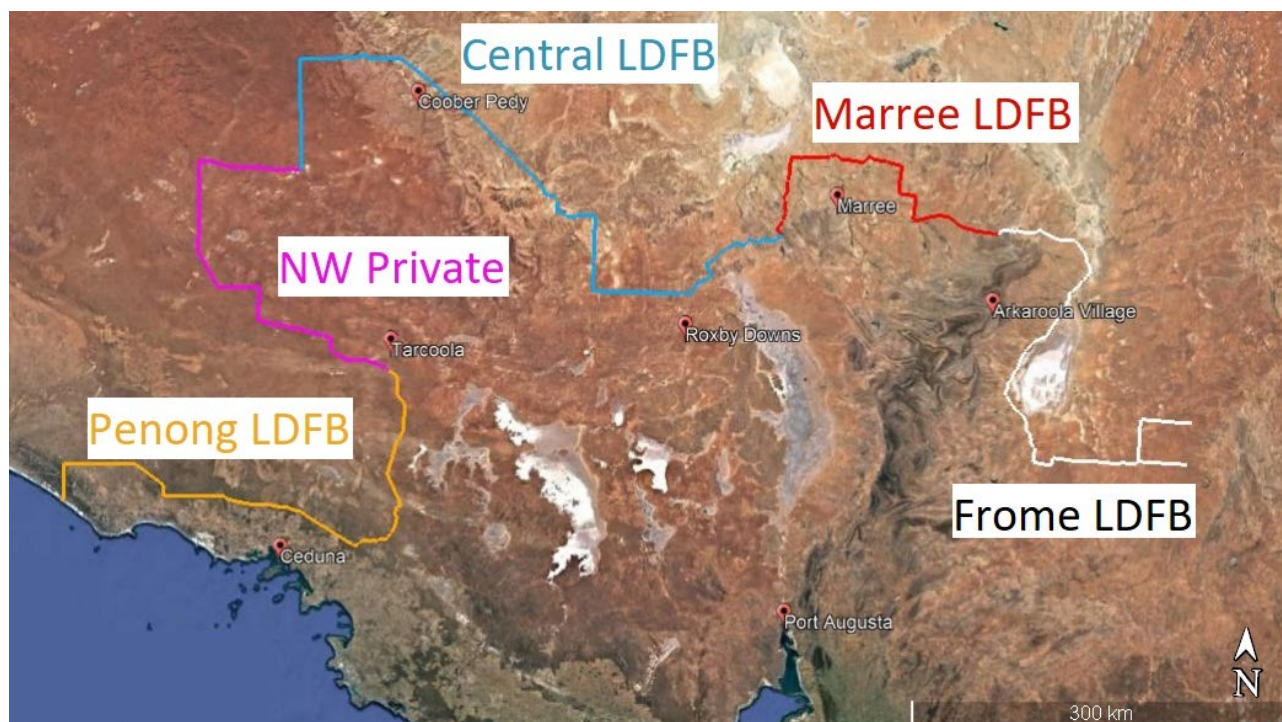

This form should be completed by any individuals or companies interested in being added to the contractor database.

The Dog Fence Board is responsible for ensuring the 2,150-kilometre-long South Australian Dog Fence is inspected and maintained to prevent incursion of wild dogs into the pastoral sheep areas.

The fence is broken up into five sections, each owned by either a private owner (North-west) or a local dog fence board (Penong, Central, Marree and Frome).

The Dog Fence Board maintain a database of suppliers interested in undertaking fencing, earthmoving (generally track repair), or patrols along the Dog Fence. When this work arises fence owners may seek the details of available suppliers from the database.

This form should be completed by any individuals or companies interested in being added to the database. The information you provide will remain confidential and will only be used by the Dog Fence Board or provided to fence owners seeking the above-mentioned services. Completion of this form does not guaranty work or any form of engagement by a fence owner.
