Report marine pests in your aquaculture facility

Marine pests can damage infrastructure, kill your stock, and spread disease.

There are **simple steps** you can take to help protect your aquaculture business:

- **Keep** your facility clean
- **Check** submerged structures and equipment for unusual growth or pests
- **Avoid** any action that could spread pests to a new location.

White colonial sea squirt

Asian green mussel

Carpet sea squirt

Asian kelp, Wakame

Black striped false mussel

Record your location
Screenshot your map/GPS
